TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased.
2) All bids are per lot as numbered in this catalogue.
3) We reserve the right to withdraw any lot prior to sale.
4) All successful bidders shall be billed for postage, handling and insurance.
5) R.M. SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
6) A SMYTHE auction bidder expressly waves any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
7) United States coins and currency will not, in conformity with law, be opened at less than face value.
8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
9) In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.
10) All bids must be in whole dollar amounts; this includes percentage increases.
11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1 1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance.
14) Title docs not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
17) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
18) In the event of dispute, the auctioneer's decision is final.

Guarantees & Rights of Recovery

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
21) All material in this catalogue is guaranteed to be genuine unless otherwise described.
22) No lots may be returned by floor bidders except for nonauthenticity.
23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or twenty one days from the day of the auction, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
28) All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales.
29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

Grading Terminology

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fair - A certificate with extreme handling, fold splitting, stains, small pieces or tears.

Fine - Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) - The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) - Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) - A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.

Extremely Fine+ (EF+) - As made, or nearly so.

All certificates are **Very Fine** unless otherwise mentioned.

Estimates & Reserves

We have placed estimates on each lot. These estimates are our conservative opinion as to what we feel a lot may bring. Prices realized may be higher or lower depending on wholesale and retail market conditions at the time.

While the bulk of the items offered in this sale are unreserved, items indicated by a " ★ " in front of the estimate are reserved at the lower price indicated. For example, an item with an estimate **★($250-Up)** is reserved by the consignor at $250.00.

Where non-published reserves exist, the auctioneer may make bids in response to others. Consignors are not permitted to bid on their own lots from the floor. R. M. Smythe reserves the right to include our own material in this auction as well as to bid on any item in this sale. R. M. Smythe & Co. has advanced money (where requested) to consignors and in addition has agreed to advance money to purchasers who have established credit in advance.

5265 **H. H. Franklin Manufacturing** (NY) 1921. **2 shs,** gr. Allegorical female, train on bridge, factory. FL-ABN. Signed as president by **Herbert H. Franklin,** newspaper publisher in Syracuse, NY. **EF.** ***($200-Up)***

This company was originally established by Franklin to manufacture metal die castings. But Franklin's experience with a car built by John Wilkinson, the air-cooled automobile pioneer, convinced him that automobile manufacturing was the way to go. Thus, in 1901, the Franklin automobile era started, spanning three decades and establishing a legend of its own in the automotive industry. Charles Lindbergh, for whom the Airman series was named, was said to have been a devoted Franklin car owner.

5268 **Pan Motor** (DE) 1920. **5 shs,** br. Title on fancy scroll. First Preferred Stock. **VF.** With original receipt. [2] ***($100-Up)***

Pan Motor was considered the most unique stock fraud in the history of high finance. Its promoter, Samuel C. Pandolfo, built a large plant and lured investors by claiming extravagant output. He successfully bilked some 70,000 unsuspecting investors out of more than $9,500,00. He was convicted for fraud by the Federal Court of Chicago in 1919.

5269 **Marmon Motor** (IN) 1930. **25 shs,** br. Three allegorical figures, winged wheel. Staple holes at left. ABN. **VF.** ***($150-Up)***

Active between 1902-1933, the Marmon Motor Car originated as the Nordyke & Marmon Company, a flour milling machinery manufacturer. Named after its brilliant engineer and designer, Howard C. Marmon, the first Marmon cars were built and sold mostly to friends. Full production began in 1905 and was prospering until the stock market crash in 1929, after which Marmon annual sales plummeted from over $22,000 to a mere $86 by 1933. To its credit however, the Marmon car was in a class of its own, topped only by Cadillac's 16-cylinder car.

5270 **Flint Motor** (MI) 1923. **5 shs,** pr. Company logo flanked by allegorical women and assembly plants. E. A. Wright. **VF.** ***($150-Up)***

With a "Durant Plan" envelope and card which records the subcriber's payments towards Flint shares. The plan as envisioned by the legendary car financier Durant, was to "encourage people in all walks of life to save a portion of their monthly wage or income...by having the individual assume an obligation which requires him to make a payment regularly each month to apply upon a partnership in a well-managed industry", which in this case was The Durant Corporation.

We accept MAIL, PHONE or FAX bids for any lots in this Sale.

It produced luxurious and lavishly equipped V-8's, pioneering thermostatically controlled radiator shutters. Founded by Abner Doble when he was only 19 years old, the Doble was the choice car for a select clientele including Hollywood's Joseph Schenck, Norma Talmadge and Howard Hughes. Abner built his first steam car as a high school student in San Francisco. However, the wartime restrictions on steel and the stock market crash forced the company to liquidate in 1931.

5281 **Du Pont Motors** (DE) 1928. **5 shs,** gr. Signed by E. Paul Du Pont as president. **VF+.** *($100-Up)*

What Are "SPECIMENS"?

When bank note companies print stocks or bonds for their customers they often print a few additional copies for various purposes. Some are kept in the bank note company's reference files. Others are sent to the customers who use them as counterfeit detectors. These extra copies usually have the word "SPECIMEN" printed into the signature blocks and they have "00000" serial numbers so that they cannot be mis-represented as regularly issued stocks or bonds. While SPECIMENS lack the signatures of the coporate officials, they are usually in pristine condition, and often they are the only way to obtain an example of a particular stock and bond.

In 1864, when these bonds were originally ordered, each bond was to have a coupon at the center bottom and sixty other coupons. Since the bonds were not prepared for sale prior to the first due date for a coupon, July 1, 1864, these coupons were superfluous. After the first series the coupon plates deleted this coupon. Most of these bonds had the January 1, 1865 coupon clipped. Bonds with this coupon are referred to as complete or "framers". Note that on one bond, the coupon has been hand altered, a most unusual state of affairs. One has a torn off corner tip while another has a soiled margin.
